

Our **Building Automation System (BAS)** provides facility owners with the tools they need to operate safer, more efficient, and more reliable buildings.

PRIMARY FUNCTIONS OF BAS:

- > Reduced energy and operating costs
- > Improved occupant comfort
- > Fewer equipment failures
- > Better visibility into building performance
- > Future-ready, open-protocol systems
- > Fast service response times

OUR SOLUTIONS: WHEEL OF VALUE

Providing BAS services since 1991, our experienced teams have completed hundreds of projects including the integration of vintage control systems from various manufacturers into a single web-based platform, as well as installation of lighting control systems.

BUILDING CONTROLS AND AUTOMATION

SMARTER FACILITIES | PROVEN PERFORMANCE

H.T. Lyons provides Full-Service Building Automation and Controls backed by decades of mechanical, electrical, and service expertise. Our in-house controls team delivers turnkey automation solutions that improve comfort, reduce energy consumption, and enhance facility reliability across the region.

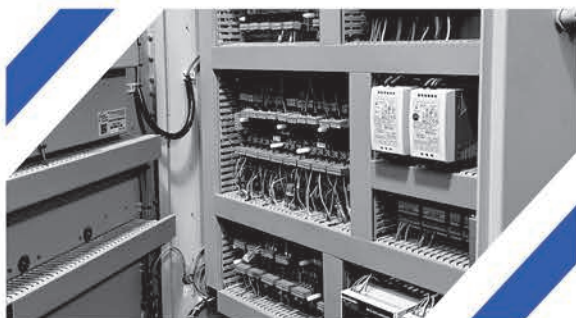

We combine engineering, installation, commissioning, and ongoing support — all under one roof.

7165 AMBASSADOR DRIVE | ALLENTOWN, PA | 610.530.2600

Most Commercial Buildings Waste 20-30% of their HVAC Energy.

Use smart HVAC controls and building automation to reduce energy waste, increase comfort, and eliminate system issues.

Upgrade your building automation without a massive capital project.

Our team integrates HVAC equipment, energy metering, lighting, and specialty systems into a centralized platform that simplifies daily operations.

YES, WE ARE BUILDING AUTOMATION SPECIALISTS

But, we also offer **preventative maintenance, system tuning, and upgrades** that keep equipment running at peak efficiency.

Digital BAS controls your buildings:

Power | Water | Air Quality | Gas
Generator | Switchboard | Facility Access
Remote Facility (Alerts in Real Time, Control Actuators via PLCs, Analyze and Process Data)

Turn-key Solutions in:

- > Design
- > Programming
- > Installations
- > Panel Fabrication
- > Parts and Smarts
- > Remote Management
- > Preventive Maintenance
- > Emergency Service & Repairs 24/7/365
- > Multiple Platform Integration
